1-800-JETTING

US Jetting 4018 - 600 Gallon Unit **6-Wheel Drive Truck - Open Unit**

Mounted on a 6 wheel drive Chevy Kodiak 5500, this **US Jetting 4018-600** High Pressure Jetting unit is designed for on and off road use. A **DURAMAX Diesel** engine with an Allison automatic transmission powers the truck chassis. Twin 300 gallon tanks provide 600 gallons of water for easement or off-road work.

US Jetting 4018 PumpSet is powered by a **Hatz Silent Pack** diesel. Standard features include a 7 position swivel hose reel, 500 feet of high pressure hose, 10' colored safety leader hose, 4 lockable tool storage boxes, rear floodlights, water tank fill gauge and 2" water fill line.
