Power Pull-Out Reel *Option*

Factory installed **Power Pull-Out Reel** allows for the extension of the hose reel and machine controls for precise manhole positioning. Combined with the **Gen II Wireless Remote Control**, a single operator can options combine to provide easy one man jetter operation.

**All Power Pull-Out
Hose Reels Include
A 7 Position Locking
Swivel Hose Reel**

Power Pull-Out Reel extends the 7 position swivel hose reel 22" inches from rear of unit for additional versatility and precise positioning over manholes.

Available Option On...

- 300 Gallon Platform Series
- 600 Gallon Platform Series
- Truck Mounted Units
- Skid Units
- Enclosed Units

Power Pull-Out Reel is standard on all **US Jetting** enclosed truck & trailer units. Hose reel is fully retracted into truck body for transport, cold weather protection and equipment security. Hose reel and controls extend past the edge of truck body for sewer cleaning use.

A second or Dual Power Pull-Out Reels are available as an option on truck, skid, enclosed trailers and 600 Gallon Platform Series units.

All Power Pull-Out Reels are controlled by a separate hydraulic valve conveniently located adjacent to the hose reel control
